

VINNIES YOUTH

THE YOUTH & PEOPLE NETWORK
FOR THE UNIVERSITY OF WEST AUSTRALIA

Vinnies was born thanks to a young student who'd walk through the poorer suburbs of his community on his way to university lectures each day.

The university he was walking on his family needed there to be change, both in difference and help where needed. Today, the university group stands to continue this legacy.

Vinnies Youth and Vinnies People are the two main groups in the UWA community network. They work closely together to provide support to students and staff members who need it. The university has a long history of providing support to students and staff members who need it. The university has a long history of providing support to students and staff members who need it.
