**Re: Unauthorized Use of WordPress Foundation and WooCommerce, Inc. Intellectual Property
Our Ref. No.: 110338.7100**

Dear Ms. Brunner:

We represent Automattic Inc. and WooCommerce, Inc. (collectively, our “Client”) in connection with intellectual property matters.

As you know, our Client owns all intellectual property rights globally in and to the world-famous WOOCOMMERCE and WOO trademarks; and the exclusive commercial rights from the WordPress Foundation to use, enforce, and sublicense the world-famous WORDPRESS trademark, among others, and all other associated intellectual property rights.

September 23, 2024

Page 2

We are writing about WP Engine's web hosting and related services that improperly use our Client's WORDPRESS and WOOCOMMERCE trademarks in their marketing.

We understand that our Client has contacted you about securing a proper license to use its trademarks, yet no such agreement has been reached. As such, your blatant and widespread unlicensed use of our Client's trademarks has infringed our Client's rights and confused consumers into believing, falsely, that WP Engine is authorized, endorsed, or sponsored by, or otherwise affiliated or associated with, our Client. WP Engine's unauthorized use of our Client's trademarks also dilutes their rights, tarnishes their reputation, and otherwise harms the goodwill they have established in their famous and well-known trademarks, and has enabled WP Engine to unfairly compete with our Client, leading to WP Engine's unjust enrichment.

Accordingly, our Client insists that you immediately stop all unauthorized use of their trademarks. Please find additional details below.

Our Client's Rights

As noted above, our Client owns all intellectual property rights in and to the world-famous WOOCOMMERCE and WOO trademarks and the exclusive commercial rights to the world famous WORDPRESS trademark, among others, and all other associated intellectual property rights, in connection with software for Internet publishing and managing website content, website development, and other related goods and services. These rights include the following U.S. incontestable federal trademark registrations:

- WORDPRESS, U.S. Reg. No. 3201424
- WORDPRESS, U.S. Reg. No. 4764217
- WORDPRESS, U.S. Reg. No. 4865558
- WOOCOMMERCE, U.S. Reg. No. 5561427
-  , U.S. Reg. No. 5561428
- WOO, U.S. Reg. No. 5561425
-  , U.S. Reg. No. 5561426

Copies of the registration certificates for these registrations are attached as **Exhibit A**.

September 23, 2024

Page 3

Violations of Our Client's Intellectual Property Rights

WP Engine promotes its services as bringing “WordPress to the masses”. See <https://wpengine.com/about-us/>. In reality WP Engine brings almost zero aspect of WordPress to the world: It claims to contribute 40 hours per week to WordPress (see <https://wordpress.org/five-for-the-future/pledge/wp-engine/>), while, by contrast, Automattic is contributing almost 4000 hours per week to WordPress. See <https://wordpress.org/five-for-the-future/pledge/automattic/>.

Instead, WP Engine's entire business model is predicated on using our Client's trademarks – particularly WORDPRESS, WOOCOMMERCE, and WOO – to mislead consumers into believing there is an association between WP Engine and Automattic. Even a cursory review of WP Engine's website shows numerous examples of such misappropriation. See **Exhibit B** attached hereto.

On information and belief, WP Engine has developed a business generating annual revenues of over \$400 million, which has been based entirely on extensive and unauthorized uses of our Client's trademarks.

Unsurprisingly, WP Engine's infringing commercial uses of our Client's trademarks have created consumer confusion as to whether WP Engine is affiliated with our Client; including many references to WP Engine being “WordPress Engine”. A few of the hundreds of examples of actual confusion are attached as **Exhibit C**. Moreover, an objective empirical survey by a leading professional survey expert indicates that a significant degree of marketplace confusion is caused by your infringing use of the WORDPRESS and WOOCOMMERCE trademarks.

Your unauthorized use of our Client's trademarks infringes their rights and dilutes their famous and well-known marks. Negative reviews and comments regarding WP Engine and its offerings are imputed to our Client, thereby tarnishing our Client's brands, harming their reputation, and damaging the goodwill our Client has established in its marks. Your unauthorized use of our Client's intellectual property has enabled WP Engine to unfairly compete with our Client, and has led to unjust enrichment and undue profits.

Violations of Our WordPress Foundation Trademark Policy

It is further inappropriate that you violated the terms of your WordCamp US Sponsorship Agreement, which specified clearly that “any use of the WordPress trademarks is subject to the WordPress Trademark Policy listed at <http://wordpressfoundation.org/trademark-policy>.” You repeatedly and intentionally violated the WordPress Foundation Trademark Policy's prohibition on the “use [of] the[] [WordPress marks] as part of a product, project, service, domain name, or company name,” as demonstrated in Exhibit B attached hereto.

September 23, 2024

Page 4

Action Requested

Our Client cannot permit this unauthorized use of its intellectual property. Our Client is entitled to file civil litigation to obtain an injunction and an award of actual damages, a disgorgement of your profits, and our Client's costs and fees. Our Client also is entitled to seek an award of attorneys' fees due to the bad faith and extraordinary nature of WP Engine's knowing and willful infringements.

Notwithstanding the above, our Client is willing to amicably resolve this matter, including through a licensing relationship for use of its trademarks. However, until there is such a license in place, we demand that you (and any parties operating in concert with you or at your direction) **immediately**:

- Stop all unauthorized use of our Client's trademarks, including but not limited to the WORDPRESS, WOOCOMMERCE, and WOO trademarks;
- Remove any offerings making unauthorized use of our Client's trademarks from any websites under your control, any associated social media accounts, and any other online or offline locations;
- Remove and destroy any advertisements that make unauthorized use of our Client's trademarks, including any online or offline advertisements and other marketing materials;
- Provide an accounting of all profits from the service offerings that have made unauthorized use of our Client's intellectual property;
- Pay our Client compensation in the amount to make them whole for your unauthorized use of their intellectual property and unfair competition, the specific amount of which may be ascertained once we have an accounting from you as requested above (even a mere 8% royalty on WP Engine's \$400+ million in annual revenue equates to more than \$32 million in annual lost licensing revenue for our Client); and
- Refrain from any further offerings making unauthorized use of our Client's intellectual property.

Legal Hold

Given the nature of this matter and the failed attempts to reach an amicable resolution, please immediately put into place a legal hold for WP Engine to preserve (i.e., not delete, destroy or modify) all physical and electronically stored data, documents, software, information and things that relate in any way to the issues raised in this letter and the prior negotiations between WP Engine and our Client regarding those issues, including any discussions related to use of the

September 23, 2024

Page 5

WORDPRESS, WOOCOMMERCE, and WOO trademarks. Data, documents, software, information and things to be preserved include but are not limited to the following, whether retained on WP Engine's or its employees' servers, work computers, home computers, tablets, phones, or any other devices:

- Emails and their attachments;
- Physical and electronic versions of documents, in any form, whether a draft, final or copy;
- Physical and electronic calendar entries, meeting notes, appointments, memorandums, letters, and meeting requests;
- Voice mails and other audio or visual recordings or files;
- Software, including application source files, software repositories, build files, and JIRA tickets;
- Websites and screenshots, including visible content and metadata; and
- Advertising materials, including social media posts, communications with advertisers, and advertisements placed via search engine sponsored ads.

Please preserve all such data, documents, software, information and things in exactly their present form until we or our Client have confirmed in writing that the duty to preserve is no longer necessary.

Please confirm your understanding of and compliance with our Client's requests by **October 3, 2024**.

Our Client reserves all rights and remedies.

Sincerely,

/Jim Davis/

James R. Davis II

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*

What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. *See* 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See* 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See* 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.

What and When to File:

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.* See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.

wordpress engine is failing me....

Feels like Rackspace 5 years ago. support is dropping off. techs seem unfamiliar with so many things.

What do I love...

1. The multiple backups and recovery system. (I will need to find a similar level of ability)
2. a system that alerts you to known security issues with largely used plug=ins/themes

What do I not love

1. kinda expensive.... with 100 sites I am dropping a monthly bill larger than a nice house note
 2. support falling off (I need server geeks that can ferret out serious issues)
- I don't mind paying the bill. Hosting partners are usually my biggest expense (next to my awesome staff)... but I pay for the ability to sleep at night.

Poor performance is my main issue with WP Engine of late.

NHRADeuce • 7d ago

I've always liked WP Engine, but this is what happens when companies get too big. WP Engine is getting huge.

I still have some clients on WP Engine, but the hulk of our sites are on Cloudways. We have the upgraded support package, but I'm not sure it's necessary. Their support has been top notch.

animpossiblepopsicle • 8d ago

I've been a customer for years but all my sites seem just a bit slower lately. Frustrating for the cost.

2 upvotes 1 reply 1 award 1 share

gold1mpala • 7d ago

Interesting your comment on the support. I thought the support up to a few months ago was terrible. Previous to that it was always great. My experience on the last few months is they've got they're act together again. Live chat, always resolves without the need for additional tickets or handing off to someone else.

Have you ever thought to host yourself?

Hetzner (dedicated), Linode or DigitalOcean VPS, Cloudways managed VPS with some nice control panel like CloudPanel plus ManageWP to handle multiple WP sites...

It's not so hard as it was decades ago. And it would be cheaper than WP Engine or Kinsta.

After walking around the sponsor hall as someone only tangentially connected to WordPress, @christinarose33 asked me what the big deal was with “WordPress Engine” and I think that exemplifies part of the problem. #WCUS

If that's the case, then provide a screenshot from WP engine, calling themselves, WordPress engine and not a third-party calling them WordPress engine

10Web advanced managed WordPress hosting

WordPress Engine, often referred to simply as WP Engine, is a hosting service specifically designed for websites that use WordPress. It provides users with managed hosting, which means it takes care of all the technical aspects of running a WordPress site. This includes things like ensuring the site is secure, loading quickly, and running the latest version of WordPress. WP Engine is popular among businesses and professionals who want a robust, optimized environment for their WordPress sites without having to manage the technical details themselves.

It powers more than 1.5 million websites in over 150 countries. You'll find its features ideal for scaling and maintaining your sites without hassle. This makes it an appealing choice for anyone serious about their website's performance.
